

This listing of claims will replace all prior versions, and listings, of claims in the captioned application.

Listing of Claims:

1 (currently amended): A physically stable shear thinning sprayable gel composition useful for delivering actives to skin comprising:

a clay gelling agent;
water;
at least one water-miscible solvent; and
at least one viscosity stabilizer.

2. (canceled).

3 (currently amended): The composition according to claim 2 1 wherein the amount of clay ranges from about 0.4 percent to about 2 percent by weight, based on the total weight of the composition.

4 (original): The composition according to claim 3 wherein the amount of clay ranges from about 0.7 percent to about 1.5 percent by weight, based on the total weight of the composition.

5 (currently amended): The composition according to claim 2 1 wherein the water-miscible solvent is selected from the group consisting of alcohols, glycols, esters, and combinations thereof.

6 (original): The composition according to claim 5 wherein the water-miscible solvent is selected from ethanol, glycerol, and combinations thereof.

7 (original): The composition according to claim 5 wherein the amount of water-miscible solvent ranges from about 30 percent to about 65 percent by weight, based on the total weight of the composition.

8 (original): The composition according to claim 7 wherein the amount of water-miscible solvent ranges from about 35 percent to about 50 percent by weight, based on the total weight of the composition.

9 (currently amended): The composition according to claim 2 1 wherein the viscosity stabilizer is selected from the group consisting of salts, acids, sugars, shear sensitive polysaccharide gums, starches, and combinations thereof.

10 (original): The composition according to claim 9 wherein the viscosity stabilizer is selected from citric acid, xanthan gum, and combinations thereof.

11 (original): The composition according to claim 9 wherein the amount of viscosity stabilizer ranges from about 0.001 percent to about 0.1 percent by weight, based on the total weight of the composition.

12 (original): The composition according to claim 11 wherein the amount of viscosity stabilizer ranges from about 0.01 percent to about 0.05 percent by weight, based on the total weight of the composition.

13 (currently amended): The composition according to claim 6 further comprising an active ingredient selected selected from the group consisting of menthol, camphor, diphenhydramine, antifungal agents, antihistamine agents, anti-infective agents, anti-inflammatory agents, antipruritic agents, skin and mucous membrane agents, wound care agents, and combinations thereof.

14 (original): The composition according to claim 13 wherein the active ingredient is selected from menthol, camphor, and combinations thereof.

15 (original): The composition according to claim 13 wherein the amount of active ingredient ranges from about 0.1 percent to about 1 percent by weight, based on the total weight of the composition.

*A
Cont*

16 (original): The composition according to claim 15 wherein the amount of active ingredient ranges from about 0.25 percent to about 0.75 percent by weight, based on the total weight of the composition.
